RE: **FAVORABLE RECOMMENDATION
SCANTEK, INC.**

To Whom It May Concern:

Ronald C. Simone, Jr. and his team at Scantek, Inc. have made our transition from forty plus years of data, using micro fiche and micro film, to Alchemy software, a smooth transition.

We have been using the Alchemy search for a few months. The Alchemy search has permitted each person, in our department of six, to have the availability of the data from our PC's. Prior to this, we had two sets of micro fiche and micro film, contained in three large books, which needed to be shared.

The micro fiche and micro film have been slowly deteriorating. Scantek has provided the opportunity to maintain the data in its current state without further deterioration.

We carefully evaluated other vendors to determine the most effective and cost efficient solution to our problem. Scantek provided the most cost effective and efficient solution.

Marc Spinello, the Scantek technical support person, has provided knowledgeable and professional services. As with any new service there were some areas needing adjustment, or training review. Marc responded quickly and addressed each issue to alleviate any problem.

We are pleased with the services provided by Scantek, Inc. and look forward to a continued successful working relationship.

Very truly yours,

Andrea Casale, Mgr.
