

# Penndel Mental Health Center

**RE: Scantek, Inc.**

To Whom It May Concern:

Penndel Mental Health has had a working relationship with Scantek and we have found that their work is always carried out in a timely and efficient manner. Their response time, turnaround schedules, high quality and competitive pricing make them a very desirable vendor.

Conversion and installation of the Alchemy Software has been stress-free, and our IT Department has been able to run projects without being impacted. Our employees are able to access and retrieve records without leaving their desks, and Scantek has allowed us to decrease the need for off-site storage and office filing space while importing our response time to our clients.

The staff at Scantek has always been considerate of and very responsive to our needs, and customer service is wonderful. We would highly recommend them, and we look forward to a continued working relationship with them.

Sincerely,

**Bob Donahue**
