

Office of Institutional Advancement

RE: Scantek, Inc.

To Whom It May Concern:

Scantek has been an integral part in Drexel University's migration of our entire history of Entity Records into the Alchemy Content Management system for the Drexel University Office of Institutional Advancement. They converted over 2,000,000 images to a digital format while also providing the versatile, user friendly interface of the Alchemy software for ease of access throughout the University. Because of Scantek's conversion service, we were able to manage our needs for increased staffing, save a large amount of office space that we were using for paper filing cabinets, and satisfy any requests for our records in seconds.

All of the Security and Back Up/Disaster Recovery has also been considered. We are also very happy with the ongoing support regarding response time and the positive results we have experienced.

We are very happy that we were given the referral from the Registrar's office of Drexel University, where the same services and history was provided.

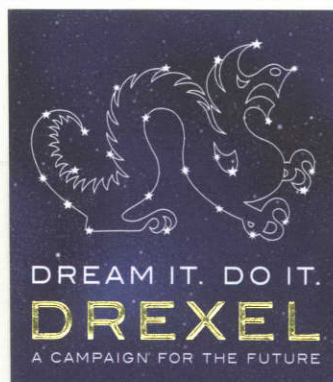

We continue to happily use the Alchemy Search software to this day to quickly and easily locate, review, and distribute our records everyday on over 25 staff member PCs. Scantek Support is also second to none and the most immediately responsive and helpful that we have ever experienced for all of our training, support, and ongoing conversion needs.

We would highly recommend Scantek, Inc., and we look forward to a continued working relationship with them.

Sincerely,

Director, I.S.

Gregory Smith
