To Whom It May Concern:

Sandmeyer Steel Company has been working with Scantek and the Alchemy application for several years. We partnered with Scantek to develop several scanning projects. We use them to scan large amounts of historical documents for us as well as to maintain the software, equipment, and procedures for the ongoing scanning that we perform in-house. Their work is carried out in a timely and efficient manner, and they have always been responsive to our needs. The high quality of their work and competitive pricing make them a very desirable vendor.

Our staff is able to use Alchemy to scan and access records in an efficient and user-friendly manner without leaving their desks. The ability to retrieve and print records with the click of a mouse has significantly decreased the time we previously spent hunting through paper files and has increased the ease and speed of our response time to our customers.

We would highly recommend Scantek, Inc., and we look forward to a continued working relationship with them.

Sincerely,

SANDMEYER STEEL COMPANY
