

Treeno Accounts Payable Solution

Treeno Document and Workflow Management for Accounts Payable makes storing and searching for documents a “one click” process. Seamless integrated with your accounting and ERP system saves time searching for files, minimizes resource intensive and error-prone process and increase efficiency.

Workflow Automation solutions eliminate repetitive tasks that often involve time-consuming bottlenecks and paper shuffling. With **electronic workflow management tools**, you automate each step in your organization's business processes. As documents and files enter a workflow, they are securely routed to the right people at the right time.

Powerful reporting capabilities allow you to monitor and track a document's progress and anticipate any performance issues before they occur. And your departments are free to handle more productive tasks.
